## Introducing DreamBox Maths for Home Learning (Year 6)

Dear Families,

We are pleased to share with you an important resource that will support your child's maths learning at home. As part of our ongoing commitment to strengthening children's confidence and fluency in maths, our school is now using **DreamBox Maths**, an interactive online programme designed to provide personalised learning for every child.

Attached to this letter is a **Home Learning Guide for Parents and Guardians**, created by Daisy Education. This guide explains how DreamBox Maths works, how children can log in from home, and the best ways you can support your child as they use the programme. It also includes guidance on setting up a family dashboard, so you can keep up to date with your child's progress.

DreamBox Maths is highly engaging and adapts to each child's needs, helping them to build strong mathematical understanding at their own pace. We encourage children to access the programme regularly at home to reinforce the learning taking place in school.

If you have any questions about DreamBox Maths or require support with logging in, please speak to your child's class teacher. We are always happy to help.

Thank you for your continued support.

Yours sincerely,

**Mr Smith**  
Assistant Headteacher

## Home learning guide for parents and guardians

Dear Parent/Guardian,

Our school is using DreamBox Maths to help your child become more capable and confident at maths.

DreamBox Maths is an online maths programme that enhances students' maths skills – improving their academic outcomes and preparing children for future success. Through regular practice on the programme, your child will receive personalised instruction to develop conceptual understanding, build critical skills, and improve achievement.

### Logging in

Your child can access DreamBox Maths via a browser on devices such as laptops, desktops, and Chromebooks or they can use the app on iPads.

The programme will keep track of assignments completed each week as well as your child's progress toward the overall lesson goals.

Weekly assignments reset every Sunday at 12:00 a.m. Encourage your child to do additional work in DreamBox Maths if they complete the weekly assignments.

### To access DreamBox Maths on a browser:

Your child can access DreamBox Maths from any computer, laptop, iPad or Chromebook - 24 hours a day, 7 days a week. All you need is a high-speed Internet connection.

### To access DreamBox Maths on a browser:

- Search [dlc.com/pupil](https://dlc.com/pupil) in your browser.

### To access DreamBox Maths via the app:

- Watch this video for step-by-step instructions on how to log in: <https://youtu.be/a7sTQZ7MDjY>

Please note, DreamBox Maths is not available on a mobile phone.

## Supporting your child

### Here are some helpful tips to encourage your child to make the most of the programme:

1. Try to finish every lesson. Keep trying your best even if it seems hard!
2. Use the interactive tools. Some lessons will include interactive tools - use them to help you solve the problems!
3. Finish every lesson. Persevere instead of choosing a new lesson.
4. Listen to the in-lesson support. Take on board the feedback and hints - they are there to help you.
5. Work independently - DreamBox Maths will adapt for you! Complete lessons on your own, at your own pace, to make sure you are working at the perfect level for you.

### Where can I go for technical support?

For free support or further information, contact [mathssupport@daisyeducationuk.com](mailto:mathssupport@daisyeducationuk.com)

## Create your DreamBox Maths account to review your child's academic progress at home

### Follow these steps to create your free account:

- Have your child log in to their profile just as they would at school.
- Click Setup Parent Access at the bottom of the page.
- Follow the instructions provided to create a new login and password.

### Log in to your home account after setup:

- Go to <https://play.dreambox.com>
- Enter the email address and password you used to set up your account.
- To see your child's progress, click the 'Family Dashboard' button.

If you have any questions, please contact your child's teacher.
