How you can support Sandwell Talking days of the week:

- Labels on children/ messages sent out by systems you already use – This will encourage parents to get involved too! We don't want to create extra work we want this to be embedded in what you do!
- Peer observations – Glimpse of Brilliance (G.O.B) wall- in staff room , comment on what you have seen your peers do well, celebrate success ? managers introduce incentives ?
- Use the Talking Tip checklist

We want these tips to become part of your EVERYDAY!!!! These are things you should be doing anyway but we want them to become intentional through your interactions.

The Talking Days of the week should be the same tips despite the setting- children centres and PVI , schools, childminders same day same tip focus. This will help parents with getting used to seeing the tips and encourage them to participate. Consistency will reduce any confusion.

How do you plan to implement Sandwell Talking Days of the week in your Early Years setting?
