Temple Meadow Statutory Assessment 2022-23

REC EYFS GLD:

Our trend over time has met National however increasingly for us the trend has been low attainment on entry and consequently significant gaps to close with regards phonics in particular. We track data linked to our Nursery entering our Reception and compare with children joining us from PVI (Private and voluntary settings). There is a big gap and we see our Nursery experience providing significant advantages. Our children make rapid progress in our Reception no matter their starting points. We are always successful with Prime areas compared national outcomes.
