**Science Fayre**

Dear Parents and Carers,

We are excited to be running another Science Fayre at school this year. Children have all been invited to participate by designing their own science project. They can either work alone or work with a friend. We welcome collaborative work between family members and your child.

The project can be an experiment to answer a question, a problem and solution or a research project. It can be on any area of Science that interests your child, for example ‘How many stars can we see?’, ‘How would I design an Icebreaker ship?’, ‘What would my family eat if we were polar explorers?’, ‘How do rainbows form?’ or related to any other science question.

When your child has carried out their investigation or research they have to make a display board to communicate their learning to others. This can be made from a large cardboard box, opened out, painted or covered in wrapping paper and held together with tape. This display board should show the project title/question/problem, what your child predicts the answer is, what they did to investigate their question, what they found and a conclusion. If they want, they can include a small model or experiment and/or project notes.

All projects need to be brought to school on **Wednesday 22nd June 2022** for our School Science Fayre which will be held in the Dance Studio. The parents of those children who are participating will be invited to attend on the afternoon. Letters with more information regarding this will be sent out nearer the time. A panel of judges will help to choose the best projects and every child who enters will receive a certificate.

Please complete the reply slip and return to your child’s class teacher to confirm your child’s participation so we can reserve your child a showcase space at the Science Fair.

Yours sincerely

*H. Facer*

Miss Facer  
Science Lead

I give permission for my child to take part in our Science Fayre on **Wednesday 22nd June 2022**.
